

ENVIROMENTAL POLICY

The Managing Direction of MANFISA WIRE S.L., a Company dedicated to the drawing of aluminum and its alloys and the manufacture of aluminum products for the steel de-oxidation, is committed to the prevention of pollution, integrating the protection of the Environment in the development of its general management.

Motivated by its growing concern regarding the protection and conservation of the Environment, the present Environmental Policy is established and oriented to its products and services, in which it undertakes to comply with the following general principles:

- Make a rational use of energy and natural resources, promoting Sustainable Development.
- Act with responsibility to reduce the environmental impact caused by the drawing activity and prevent future environmental incidents, by using the best available techniques.
- In MANFISA WIRE S.L., we will periodically define Objectives and Targets, concrete and quantifiable, in benefit of the Continuous Improvement of the environmental performance.
- Comply with the current Legislation and Regulations, as well as with other requirements that the Organization and / or interested parts sign in environmental matters.
- Form, inform and sensitize all its workers to ensure that they carry out their work with minimal risk to the Environment.
- Demand that our environmental principles would be assumed as their own by our suppliers of raw materials and services.
- Establish and maintain an effective Environmental Management System inspired by the principles of this Policy

It is the responsibility of MANFISA WIRE S.L. to communicate this Environmental Policy to all the members of the Organization and have it available to other interested parts, as well as being reviewed and adapted to the new environmental conditions.
